Objective

The Fire and Restoration Management Fund (FOMAFUR, acronym in Spanish) aims to finance activities for fire prevention and protection, strengthen capacities for fire management, and support the restoration of burned areas within priority regions for biodiversity conservation in Mexico.

Lines of work

- 1** Strengthening capacities for fire management; prevention, protection and firefighting.
- 2** Conserving biodiversity and environmental services through fire management.
- 3** Restoring burned areas to support the recovery of structure and function in affected ecosystems.

Map: Projects funded in 2023-2024.

Achievements

108 projects funded from 54 local and community-based organizations.

35 PAs supported against wildfires.

Fire prevention and management actions carried out in **16 entities of Mexico**.

Data updated at the end of 2024.

Allies

Donor:

- U. S. Forest Service

Partners:

- National Commission of Natural Protected Areas (CONANP acronym in Spanish)
- National Forestry Commission (CONAFOR, acronym in Spanish)
- Division of Forestry Sciences, Chapingo Autonomous University
- Institute for Ecosystem and Sustainability Research, National Autonomous University of Mexico (UNAM, acronym in Spanish)
- Manantlán Institute of Ecology and Biodiversity Conservation, University of Guadalajara's South Coast University Center
